

WELCOME TO SUMMER PUZZLES 2025

THE MYSTERY AMORPHEGGS, PT. I

“Hook the Name” - Solution

Answer: **KANGAROO**. The carpet is 32 squares by 32 squares. The hook’s long arm fits along a full side of the carpet. Following the hook shape along shorter and shorter lines (each one half the length of the previous line), you go 16 squares, then 8, 4, 2, 1, and half a square, turning all the while. Then you turn *into* a square. This is the letter you’re hooking. You can position the hook along any side, either clockwise or counterclockwise, to make 8 possible positions. Read the 8-letter answer clockwise from the top.
