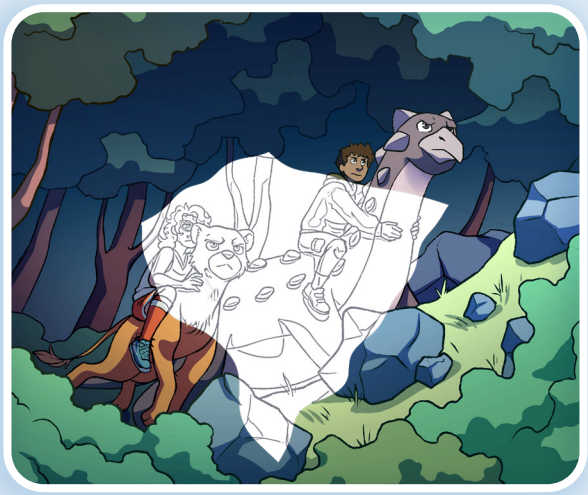
UP THE MOUNTAIN



The Forest had been tricky. But Wyatt and Gwen had decoded the mysterious instructions given by the trembling tree, and now the kids emerged from the woods. A long grassy slope stretched up ahead of them toward rocky heights.

"The Mountain!" said Wyatt happily. He loved this place, so unlike his home in the real world. His mount Bront thundered ahead, its club tail dragging noisily. Chuckling, Gwen raced forward on her lioness. Some minutes later, they all stopped at the edge of a ravine.

"Look!"

Across the ravine lay a shifting maze of stone blocks, letters etched between them in the ground. Just beyond the maze, a wolf-like creature prowled.

GROUP SOLVE-A-MAZE

For both options, place this artifact in a plastic sleeve and use a dry-erase marker, or use a pencil.

Option 1: **Blindfolded Pairs**

One of you is the **Blindfolded Solver**. Put on a blindfold (or close your eyes) and draw an unbroken line through the maze from start to finish. Don't hit any walls! Listen to your partner.

The other person is the **Seeing Director**. Look at the maze and give your partner directions aloud. Don't touch the Solver or the marker/pencil, except to put the writing tool back in the starting circle.

Option 2: **Draw Once and Pass**

Make teams of 2-4 people. Your team will race others to complete the maze with one unbroken path. Each of you can only draw straight lines—no bends or turns! After the first person draws one straight line, the next person draws another straight line from the end of the first line, and so on in order. If you hit a wall, you have to erase the last line and redraw it. The first team to draw a path from start to finish without touching any walls wins.
